

Title	Frequently Asked Questions for Parents/Carers
Summary introduction	<p>In response to local needs, this frequently asked questions (FAQS) paper has been prepared to collate and respond to common questions asked by parents about their child/ren returning to an education or childcare settings.</p> <p>Some answers will depend on individual setting's circumstances and will need to be added or amended by the settings themselves. Before issuing, please check all the answers reflect your setting's practice and advice.</p> <p>This is not an exclusive or exhaustive list of questions and/ or responses, but has been produced based on information available at the time of writing. The information will be updated periodically and will remain subject to change as more timely and relevant information, advice and guidance becomes made available superceding previous information.</p>
Audience	Educational/childcare settings and parents/carers
Date of issue	21 st May 2020
Effective from	1 st June 2020
Review date	To be reviewed fortnightly (or sooner in response to local needs or government legislative changes)

Ref.	Question	Response(s)
1.	Which children can attend school from the 1st June?	<p>Many education and childcare settings are already open to priority groups (vulnerable children and children of critical workers.</p> <p>From the week commencing the 1st June:</p> <ul style="list-style-type: none"> - primary schools will welcome back children in nursery, reception, year 1 and year 6, alongside priority groups. - secondary schools, sixth form and further education colleges will offer some face-to-face support to supplement the remote education of year 10 and year 12 students who are due to take key exams next year, alongside the full time provision they are offering to priority groups. - nurseries and other early years providers, including childminders, will welcome back all children. - Special schools, special post-16 institutions and hospital schools will work towards a phased return of more children and young people without a focus on specific year groups.

Ref.	Question	Response(s)
		This approach aims to limit numbers within schools and further education settings while ensuring that the children and young people who can benefit from attending most are able to do so.
2.	What if my child is eligible to attend school but has siblings who are not?	<p>Only the priority year groups will return from the 1st June. This does not include siblings in different year groups unless those siblings are in a priority group, for example, the children of critical workers.</p> <p>It is hoped that all primary school children can come back to school before the summer holidays, for a month if feasible, although this will be kept under review.</p>
3.	How will risks to children and teachers be managed?	<p>A thorough risk assessment has been undertaken to address risks associated with the coronavirus, so that a range of protective measures can be put in place, including:</p> <ul style="list-style-type: none"> ✓ Arrangement of classrooms for social distancing - desks within each room will be widely spread with each child being allocated a desk. He / she will remain at this place each day and movement around the classroom strongly discouraged. In almost all circumstances the children will be expected to enter and exit the classroom using the fire door in their room. ✓ Small teaching groups with consistent teaching staff (bubble) – children will be in bubbles of no more than 15 children. They will be taught by the same teacher each day in order to minimise the number of adults that they come into contact with. ✓ No mixing with other groups – children in different bubbles will not mix with any other children beyond their bubble during their time on the school site. ✓ Staggered lunch/break – the school day will be amended in order to permit different bubbles the chance to access the outdoor areas at different times ✓ Cleaning of equipment – as much as possible each child will have his /her own stationery. Equipment used in school will be disinfected regularly. ✓ Restricted use of equipment – different bubbles will be strongly discouraged from sharing equipment with other groups. Where this is unavoidable i.e. the use of ipads, the equipment will be wiped down using antibacterial procedures before it is used. ✓ Regular handwashing – children will be encouraged to wash their hands regularly. They will wash them as soon as they enter the school building and at other times during the day. Handwashing is to be done using the sinks in the classrooms in order to reduce activity around the toilets.

Ref.	Question	Response(s)
		<ul style="list-style-type: none"> ✓ Daily cleaning – Classrooms will be thoroughly cleaned each day. Additional cleaning will be done during the day around areas that are touched by many people. Staff to regularly disinfect surfaces in classrooms ✓ Toilet arrangements – Each bubble to be allocated specific toilets. Children to be supervised whilst accessing toilets in order to prevent mixing of bubbles. Children to be taken to be toileted at the end of each session. ✓ Staggered drop off and pick up times/sites – Flexible start to the school day 8:30 onwards. Staggered pick up from each bubble to be communicated to parents ✓ Social distancing for parents picking up children – No parents are to be allowed on to the school site in the morning, children will separate from their carer at the school gate and then go straight into school. Only one adult per family to be permitted onto the school site at the end of the day. Adults to be encouraged to remain at least 2m apart whilst waiting for their child. Parents to be encouraged to arrive at their child’s collection time, not before or after it.
4.	<p>What do I do if my children have different drop off / pick up arrangements to each other?</p>	<p>The staggered finish time to the school day means that the older pupils are finishing before the younger ones. Where two or more children from the same family are in school, the older child will collect the younger sibling when the older child has been dismissed and then take the younger child to their parent.</p>
5.	<p>Will children and staff need to wear face coverings when they return to school?</p>	<p>Wearing a face covering or face mask in schools or other education settings is not recommended. Face coverings may be beneficial for short periods indoors where there is a risk of close social contact with people you do not usually meet and where social distancing and other measures cannot be maintained, for example on public transport or in some shops. This does not apply to schools or other education settings. Staff and pupils are therefore not required to wear face coverings.</p>

Ref.	Question	Response(s)
		Face coverings should not be worn in any circumstance by those who may not be able to handle them as directed (for example, young children, or those with special educational needs or disabilities) as it may increase the risk of transmission.
6.	What if a parent insists their child wears a mask?	Inform the parent that this is not recommended and outline the reasons why. If a parent still insists, masks should only be worn by those that are able to handle them as directed, to avoid risk of transmission.
7.	If my child is showing symptoms of coronavirus what do I do?	<p>If a child or young person develops coronavirus symptoms, they should remain at home and self-isolate for 7 days. Their fellow household members should self-isolate for 14 days. All children and young people who are attending an education or childcare setting (over the age of 5), will have access to a test if they display symptoms of coronavirus, and are encouraged to get tested in this situation.</p> <p>Where the child or young person tests negative, they can return to their setting and the fellow household members can end their self-isolation.</p> <p>Where the child or young person tests positive, the rest of their class or group within their childcare or education setting should be sent home and advised to self-isolate for 14 days. The other household members of that wider class or group do not need to self-isolate unless the child or young person they live with in that group subsequently develops symptoms.</p>
8.	How do I access a test for my child?	Testing is available for everyone over the aged of 5 years old. To access testing parents/carers will be able to use the 111 online coronavirus service if their child is 5 or over. Parents will be able to call 111 if their child is aged under 5 for advice.
9.	I have a child that is under 5 attending childcare, can they be tested?	<p>Children under 5 are unable to be tested. Parents should call 111 for advice, if their child is aged under 5 and showing symptoms of coronavirus.</p> <p>A symptomatic under 5 year old should be sent home and advised to self-isolate for 7 days. As no tests are available for under 5's unless hospitalised, the symptomatic under 5 should be treated as positive and their household members will need to self-isolate for 14 days.</p>

Ref.	Question	Response(s)
10.	<p>What happens if another child or member of staff attending the same setting tests positive for coronavirus?</p>	<p>If the individual that tests positive is in your child's immediate teaching group/class, you will be notified and your child will need to self-isolate at home for 14 days. However other members of your household will not need to self-isolate unless your child develops symptoms.</p> <p>If the individual that tests positive is not in your child's immediate group/class your child can continue going to school and will not need to self-isolate.</p> <p>As part of the national test and trace programme, if multiple cases are detected within your child's immediate group/class or in the wider setting, Dudley's Health Protection Team will conduct a rapid investigation and will advise us on the most appropriate action to take.</p>
11.	<p>Should I keep my child at home if they have an underlying health condition or live with someone in a clinically vulnerable group?</p>	<p>Children and young people who are considered <i>clinically extremely vulnerable (shielding)</i> should continue to stay at home and should not be expected to attend.</p> <p><i>Clinically vulnerable</i> (but not clinically extremely vulnerable) people are those considered to be at moderate risk from coronavirus. A minority of children will fall into this category, and parents should follow medical advice if their child is in this category.</p> <p>Children and young people who <i>live in a household with someone who is clinically extremely vulnerable</i> and shielding should only attend if stringent social distancing can be adhered to and the child or young person is able to understand and follow those instructions.</p> <p>Children and young people who <i>live with someone who is clinically vulnerable</i> and including those who are pregnant, can attend.</p> <p>The definition of <i>clinically extremely vulnerable</i> and <i>clinically vulnerable</i> can be found at https://www.nhs.uk/conditions/coronavirus-covid-19/people-at-higher-risk-from-coronavirus/whos-at-higher-risk-from-coronavirus/</p> <p>Guidance on <i>shielding and protecting people who are clinically extremely vulnerable</i> can be found at https://www.gov.uk/government/publications/guidance-on-shielding-and-protecting-extremely-vulnerable-persons-from-covid-19/guidance-on-shielding-and-protecting-extremely-vulnerable-persons-from-covid-19</p>

Ref.	Question	Response(s)
		<p>Guidance on staying alert and safe (social distancing) can be found at https://www.gov.uk/government/publications/staying-alert-and-safe-social-distancing/staying-alert-and-safe-social-distancing</p>
12.	<p>My child has asthma, do I need a letter from the GP to enable them to return to school?</p>	<p>Children with asthma will have been assessed by a medical practitioner and categorised as either : High risk (clinically extremely vulnerable). This is severe asthma and your child should have received a letter from their GP to shield and will not be expected to go to school or college until their period of shielding ends, currently 30 June 2020 (date correct on 14th May 2020). Further guidance is expected for this group.</p> <p>Or moderate risk (clinically vulnerable)</p> <p>NB There are only two categories of asthma. Mild asthma does not exist.</p> <p>If your child has not received a shielding letter this means they are in a position to attend the setting and no further correspondence is required to confirm this, therefore GPs will not be issuing letters to inform settings.</p> <p>If parents are concerned that their child should not be attending the school due to their medical condition, they should visit their GP.</p>
13.	<p>Will the catering service still provide meals for children?</p>	<p>Our catering service will continue to provide meals, however we intend to initially provide a 'grab bag' style packed lunch for those pupils in school requiring a lunchtime meal. Catering teams on site will liaise with school management in order to review the situation with a view to amending the menu in future weeks, if it is safe and practical to do so.</p>
14.	<p>Can my child bring their own lunchbox to school?</p>	<p>Yes, children may bring their own packed lunch to school. Can we please urge you not to send anything into school that your child cannot open themselves. This is in order to reduce the number of people touching your child's food.</p>
15.	<p>Will Reception and Year 1 children still receive</p>	<p>At the moment we have not heard from the school fruit scheme, so do not know the answer to this question.</p>

Ref.	Question	Response(s)
	fruit every day for their break time snack?	
16.	I have chosen not to send my child back to school even though they are in one of the priority year groups, will I be fined?	Government guidance strongly encourages children and young people in the eligible year groups and priority groups to attend, unless they are self-isolating or there are other reasons for absence, such as shielding due to health conditions. However if you decide to not send your child to school, you will not be fined for non-attendance at this time. Every family must make the decision that sits most comfortably with its own situation and beliefs.
17.	I have chosen not to send my child back to school even though they are in one of the priority year groups, how do I inform the school they will not be attending?	The school has gathered this information already through its email procedures. We have a full list of which children we are expecting to attend and do not need notifying that your child will not be attending. Please do not send your child to school unless we have allocated him / her a space in one of the bubbles as these are extremely limited as we strive to ensure that no bubble breaches the recommended capacity.
18.	I have chosen not to send my child back to school even though they are in one of the priority year groups, will they still get set work to do at home?	Work will still be set for those staying at home. However, please understand that the teachers are also having to plan and teach work for those children in school. We will endeavor to make sure that both groups receive broadly similar work.
19.	Will there be any breakfast club or after school club provision?	Due to the need to keep children within their social bubbles, we are unable to offer OSCAR club as this would inevitably mean that the children would come into close contact with children who have been kept in other bubbles during the day.

Ref.	Question	Response(s)
20.	My child usually travels on the bus to school, should they still do this?	<p>Children, young people and parents are encouraged to walk or cycle to education or childcare settings, where possible. However for those who have to use public transport, the guidance for passengers on how to travel safely recommends:</p> <ul style="list-style-type: none"> • keeping 2 metres apart from others wherever possible • wearing a face covering if you can. However, face coverings should not be worn by those who may find them difficult to wear, such as children under two or primary aged children who cannot use them without assistance, or those who may have problems breathing while wearing a face covering • using contactless payment where possible • avoiding rush hour travel where feasible • washing or sanitising your hands as soon as possible before and after travel • following advice from staff and being considerate to others <p>The full guidance can be found at www.gov.uk/guidance/coronavirus-covid-19-safer-travel-guidance-for-passengers</p>
21.	My child receives home to school transport, will this still be provided during this time?	Home to school transport will be provided to eligible children, speak to your school for further details.
22.	What do I do if I need to speak to a member of staff at school?	We ask that parents contact the class teacher or Mr Bradley cbradley@chur-ascen.dudley.sch.uk with any queries. We will try to respond to these at the end of the school day. Please note that parents will not be permitted to enter the school building unless they have a prior appointment. You may ring the school office, but we would prefer that communication by email is used wherever possible.

Ref.	Question	Response(s)
23.	Does my child need to wear school uniform?	All children attending school from 2.6.20 will be expected to wear school uniform. We recommend that this is washed more frequently than normal in order to reduce the risk of infection.
